Annual Report
Academic Session : 2024-2025

From Editorial Board

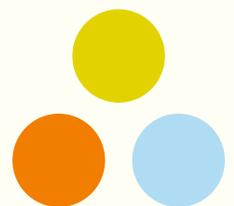

We are immensely delighted and excited to unveil the inaugural of The E-Magazine, 2024-2025 . This Magazine is not just a publication but it is a reflection of hard work and dedication of our budding talents who have contributed to make the magazine extraordinary. We hope that the readers will appreciate the efforts of our creative learners who did tremendous job to produce this brilliant piece of work in the form of annual school magazine.

We, at Aadharshila Vidyapeeth, give ample opportunities to all our innovative scholars to showcase their literary, artistic and creative aptitude across all grades of the Primary, Middle and Senior. The annual school magazine provides a perfect platform to the students to give expression to their creative thoughts and translate their own ideas and beliefs into meaningful words.

We are extremely sanguine that our institute is constantly supporting and fostering new young minds to think out of the box and creating something unique for our wonderful readers. In today's digital era, where the habit of reading and writing is gradually diminishing, this newsletter emboldens the young writers as well the readers to reconnect with the joy of writing and reading. The souvenir not only highlights the inner talents of our shining stars but also chronicles the celebrations, events, accolades and achievements in academics as well as in various co - curricular activities . A detailed report of Campus activities and Departmental achievements find a prominent place in the publication.

As we move forward, let us continue to nurture this synergy of academic and creative excellence. Let us encourage our students to embrace challenges, explore new horizons and push the boundaries of their potential.

Happy Reading!
With Warmest Regards

FROM THE DESK OF HOS

“The whole purpose of education is to turn mirrors into windows”

By Sydney J. Harris

Aadharshila Vidyapeeth, Pitampura aims at nurturing young minds with preeminent values and multifaceted competencies which will help them to face different challenges in life and remove all obstacles that prevent them from achieving their goals or moving forward on their journey.

Our objective is not only to impart quality education to the learners of digital generation but also develop a sense of emotional maturity, spiritual insights, sympathy, generosity, never to give up spirit, teamwork and above all morality which is significant for every individual to have an amazing personality. The purpose of education is to shape the personality of a child into a peaceful mind and happy soul. Therefore, we, at Aadharshila Vidyapeeth, believe that it is our major responsibility to make each student of the institution a balanced human being having his core strengths embedded in the learning experiences.

We believe every child is priceless, distinctive and an institution in itself. It is like a moldable clay, a unique gift from almighty, consigned to us to shape and nurture. So, it is the sincere responsibility of the teacher fraternity to refine these young minds and help them to explore their hidden talents, capabilities, imaginations, beliefs, true potential and purpose. It is a sacred duty of all of us to illuminate the path to self-realization for each rising star of our school with affection and dedication.

I genuinely appreciate the hard work and dedication of all the facilitators, staff members and students who brought laurels to the school by achieving heights in academics, co-curricular activities and sports.

Wishing all our children a happy and successful journey of learning!

Regards
Dr. Priti Saxena
Head of the School
