

Aadharshila Vidyapeeth 'SPECTRUM' THE E-MAGAZINE

July to September - 2023-2024

Ed. 1, Vol. 2

"Ocean of Opportunities!"

From the Editorial Team

This successive issue of 'SPECTRUM-2023-24', the E-magazine of Aadharshila Vidyapeeth, Pitampura, Delhi, celebrates the theme 'Aadharshila Vidyapeeth: Ocean of Opportunities'.

We congratulate all the students whose creative work and achievements are published in this issue and express our sincere thanks to their mentors.

This issue of Spectrum speaks volumes about the accomplishments of our students in various National, District, Inter-Zonal, Zonal and Inter-School competitions. School appreciates their commendable performances with a huge round of applause. This edition also applauds a remarkable milestone achieved by our student authors who are published with BriBooks in this year's summer book writing festival. The issue also weaves the tapestry of numerous celebrations, learning opportunities, Annual Shows, Exhibitions, hands-on-experience and technological exposure the school offers to students time and again.

A significant part of this success story is the genius support of our School Management and HOS Ma'am. Their visionary leadership has steered our school towards new horizons.

Happy Reading!

From The HOS' Desk

"Flowers leave part of their fragrance in the hand that bestows them."

Dear Parents
Warm Greetings!

Education is not merely acquirement of facts but also of values which help us improve the different facets of mankind. It ensures that we leave the world a far better place than we found it. A pivotal role of education lies in shaping the personality of a child into a healthy mind and happy soul, who is not only equipped with 21st century skills and aptitude required for academic excellence but helping him face the challenges of life in a balanced and harmonious way. Therefore, the system of education should work as a catalyst in making each child a balanced human being having his core strengths embedded in the learning experiences.

At Aadharshila Vidyapeeth, we enterprise to map academic excellence with a good human value system, which in myriad ways is ingrained in the culture of the school. In this pursuit of excellence, I appreciate our parent fraternity for supporting the school in every aspect. I also laud the relentless efforts of our teachers for giving their best in bringing out the best in each child. I would exhort the students to be always modest, humble and disciplined, while being ready to expand the horizons of their knowledge and skills by dreaming big and working hard.

Each issue of our school magazine is a milestone that marks our growth, unfolds our imaginations, and gives life to our thoughts and aspirations. It unleashes a wide spectrum of creative skills ranging from writing to editing and even in designing the magazine. I congratulate the entire editorial team for their hard work and dedication in making this dream come true.

Teamwork is the hallmark of Aadharshila Vidyapeeth. I am very sure, through collaborative effort we can achieve more to benefit our students who are the future leaders of tomorrow. With sincere and warm regards

Dr Priti Saxena

Enumeration of the school's cumulative achievements in **SPORTS**

Aadhaarshila Vidyapeeth exemplifies an unwavering commitment to nurturing sporting talent as an integral component of holistic student development. Recognizing the profound impact of sports on physical well-being, character building, and overall academic success, our institution has strategically invested in a diverse range of athletic programs.

Through dedicated coaching, state-of-the-art facilities, and a robust framework of Zonal, Inter-zonal, District, and State-level competitions, the school provides a platform for students to explore and excel in various sports such as yoga, judo, basketball, volleyball, and kurash. This commitment extends beyond mere participation; it encompasses a culture that fosters teamwork, discipline, and resilience. By emphasizing the importance of sports, our school not only shapes skilled athletes but also instills values that contribute to the overall growth and success of our students.

Aadharshila's Wordsmiths Shine

" Writing is simply thinking through fingers wherein the imagination encircles the universe and beyond."

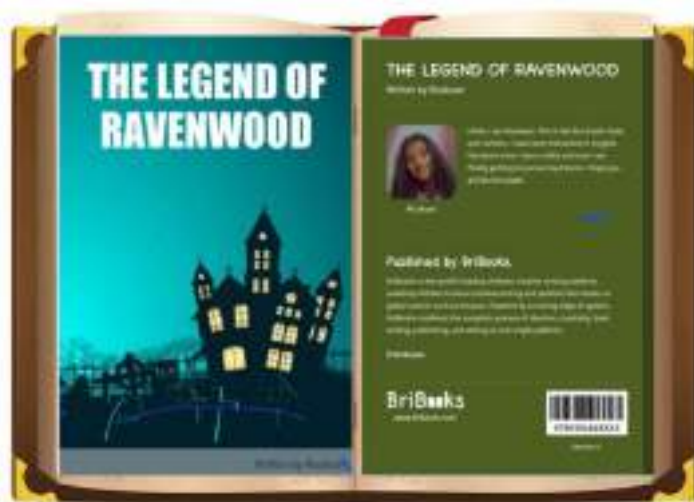

Aadharshila Vidyapeeth continues to imbibe and promote creative expression in its students. In the summer of 2023, our numerous budding writers published masterpieces under Bribooks- World's Largest Platform for promoting young authors and their creative prowess. 25 such books have been authored by our student prodigies.

The books are available in both printed and virtual format at Amazon. They upheld our pride for exceeding excellence throughout their journey of writing these treatises.

The assembly culminated with an educative speech by the teacher speaker.

A didactic workshop on the same theme was conducted on July 12, 2023 for classes IX & XI throwing light on social, economic and environmental consequences of rapidly increasing population. The workshop concluded with a quiz to recapitulate the key take away.

International Days

WORLD NATURE CONSERVATION DAY

"Earth provides enough to satisfy every man's needs, but not every man's greed."

On the occasion of World Nature Conservation Day, an Inter House Rangoli Making Competition was organized for classes VI-VIII on 31 July 2023 to raise awareness about the importance of environmental conservation.

The event took place in the school premises, with participants from different classes. Participants used eco-friendly materials and natural colours and exhibited remarkable creativity and imagination through their display of art. They were adjudged on the basis of creativity, aesthetic appeal, and the ability to convey a conservation message effectively.

Communication between parents and teachers is essential to student success in the classroom.

Aadharshila Vidyapeeth have always believed that the holistic development of the students is a cumulative effect of the influences exercised by the parents and teachers on their lives. Parent-teacher interaction bridges the gap between the parents and mentors of the students. The parent-teacher meeting was held on July 22, 2023 for classes PS- to 12, providing an opportunity to discuss the student's progress while also shedding substantial light on their areas of improvement. In addition, concerns were resolved over a student's specific academic or behavioural issues.

ETERNAL GRACE

Khushi Jain, X A

Through the canine tops-
That are green,
I see things that you conceive
Sitting under your shadow I feel serene.
A white coat in the cold,
In the springs went gold.
You look all the same NO matter how old....
Standing in a lane along my street
When the rain falls down-
It sounds so sweet,
To you through my window
I lean and greet

NATURE

Aakriti Grover, IX-C

In fields of green and skies of blue,
Nature's beauty shines anew.
With flowers blooming, birds in flight,
It's a wondrous and stunning sight.

Through forests deep and oceans wide,
The beauty of nature cannot hide.
With trees that sway and waves that crash,
There's so much wonder to amass.

From mountains high to valleys low,
Nature's majesty does show.
With streams that flow and clouds that roll,
Nature always takes a toll.

The sun that sets and the moon that rises,
Nature's beauty is full of surprises.
So let us take a moment to see,
The beauty of nature that's around you & me.

WHAT IS UNIVERSE ?

Kashvi Sharma, VII C

I am a part of the universe
and the universe is a part of me
It's an inseparable bond which is never seen
welcome to the universe
Where everything is magical ,
among the darkness lay pinpricks of light
Fighting the shadows in a galactical plight

black holes churn out storms of stars
Forging solar system for life to make art,
Through the pink nebula and Stardust paths ,
Awaits for all the questions to be asked.

The universe takes out then takes back
Creating a balance which leads your soul to
depart,
Dancing meteorites show the way,
Of what should be the home for a different
race.

The elements are finally done
Now the amazing gravity takes its turn
As planets align and create a trail
That forms part of the Milky way
With the scientific vision,
For the unusual mission,
To unveil the mystery
To create a History,
Carries out experiments
With all logics to implement,
Introducing successful Chandrayaan 3
Where all head behind are wise,
To dig out the frozen ice
Many secrets and questions are
still to be raised
Look up into the dark night
Let the universe fall inside your mind
See beyond the boundaries of this life,
Seek a journey that will make you hold on
tight.

Last day
of SCHOOL!

जब विद्यालय से जाने की बारी आई है.....
बात यही सबने समझायी है....
नई मंजिल होगी नया रास्ता होगा और दोस्त.....
पर बहुत से दोस्त नये होंगे कहने वाले अपना कहेंगे.....
पर बहार की इस दुनिया में बहुत लोग अपने होंगे.....
ये 12 साल तो यूं ही गुजर गए.....
खुशी के ये पल यूं ही सिमट गए.....

WHO I AM

Paarnika Kathuria, XI A

Who will I be when I grow up?
The question in my head is always stuck
I saw a kid once
With a stethoscope around his neck he comes
Wanting to be a doctor, he was certain
But deciding who I had to be was such a burden
Would I be a singer, or an artist maybe?
Contemplating thoughts of my future daily.
Who will I be when I grow up?
There's passion, a deluge inside of me
The cloudburst of visualisations being abrupt
There's a dream in front of me I see
I'm in a cocoon no longer
Sometimes I'm scared sometimes I wonder
What would I give to go back in time
No idea what the future holds
Could be a sweet cake or a sour lime
Right now who am I?
Nothing but a dreamer
In the tempest, I want to fly
But still a planner
In the torrents, I want to swim
But with a flow for now I'll begin.

A New School Year

Prachi Arora XI A

The school year is here,
And students are cheer.
With books and backpacks,
They're ready to attack.

The teachers are ready,
With lesson plans steady.
They're excited to teach,
And help students reach.

The staff is ready,
To keep the school tidy.
They're here to support,
And make sure everyone's heard.

The parents are ready,
To help in any way they can.
They're here to cheer,
And help their children reach for the stars.

So let's all welcome,
A new school year, full of promise.
Let's work together,
To make it a year to remember.

LIFE

Atharv Jamla, IX E

Beneath the cerulean sky so wide,
Where dreams and hopes do coincide.
A world of wonder, far and wide,
In nature's beauty, we take our stride.

In every Sunrise, a new chance to be,
In every sunset chance to see,
The tapestry of life's complexity,
In this grand stage, we find our glee.

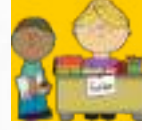

So let us cherish each passing day,
In this grand adventure, come what may,
For life's a poem, in its own way,
With verses of Joy and skies of gray.

DEAR TEACHER!

Bhargavi Sharma, XI A

Dear teacher,
Thank you for your blessings!
For you, I have a million compliments that
never got to 'sending',
One of them, 'you are the gods' creature.

You have molded my thinking.
Berating me was just a tool.
Realizing this now, I feel like a fool.
But if I could go back I would apologize
without blinking!

PERSPECTIVE: GLASS HALF EMPTY OR FULL?

Nyah Nevtia, XII D

It all comes down to the way you look at things that is perspective. A situation always has at least two sides, one you think is right and the other wrong. With anything for that matter, there's always a choice. In the past couple days I've learnt a lot of things, one of them being that whatever happens, good or bad, it is the result of your choices.

Even when times are sad, there's always a perspective where in optimism of some sort is prevalent. It is up to you if you choose to see it with a little effort or let yourself be in the misery. Its probably one of the most difficult things to habituate yourself to, but once you do you will see a magnanimous change, a good one. There's a lot even I'm trying to understand and simplify and maybe writing it out will help.

Often, when there's a situation, one is inclined to believe that there's no option but to be despondent. This is what I want to change for both you and me. It requires efforts to try to change the way you think. Each perspective has its own distinctive strengths and blind spots. Every individual has their own point of view and everyone thinks their point of view is right. At times you may not resonate with others but that doesn't mean they're wrong. When you already believe in something, it alters the way you look at things.

To most people all this may seem like it's just philosophy or just some theories but if you truly want to change things for the better, your perspective plays the most important role. It's all about if the glass is half full or empty i.e the way you look at things, the way you interpret situations and deal with them. And instead of mentally telling yourself that it is tough and you "have to" do something, you can find a silver lining by telling yourself that you "get to" do it, it's an Oppurtunity.

The people we spend time with, our culture and many other things influence our perspective and shapes the way we perceive things. Its fascinating and incredible how perception makes all the difference, maybe for the better or worse. Once you seek fresh perspectives, you will be a better "you" in every way.

The world doesn't have to be yellow, it can be clear, bright and beautiful. It just depends on your perspective. Take a new way home tomorrow, walk through a section of campus you've never seen before. There's a whole universe of knowledge and wisdom that needs your attention. Afterall its all about your own perspective.

SUSTAINABLE TOURISM- CRUCIAL FOR THE VISION OF DEVELOPED INDIA AT 2047

Vanshika Singh, XII C

According to WIKIPEDIA, SUSTAINABLE TOURISM is defined as concept that covers the complete tourism experience, including concern for economic, social and environmental issues as well as attention to improving tourists' experiences and addressing the needs of host communities. However, achieving sustainable tourism is a continuous process and requires regular monitoring on impacts and measures whenever necessary.

• WHY SUSTAINABLE TOURISM?

Tourism the source of livelihood to so many people out there, is necessary for various tourist organisations to provide services that is not only for profit-making purpose but also for safeguarding the environment and surroundings.

Adapting sustainable tourism is advantageous. Here are some realistic ways everyone can support this.

1. BY USE ECO-FRIENDLY VEHICLES TO TRAVEL
2. WALK WHEREVER POSSIBLE
3. SUPPORT LOCAL RESTAURANTS
4. BUY ARTWORKS FROM THE LOCAL STORES
5. GO GREEN AT YOUR STAY!
6. TAKE CARE OF THE HERITAGE PLACES

As the economy and environmental circumstances of the country determine the position of the nation globally, it is the small steps that should be taken by every citizen and implemented in the right direction in favour of making the country developed.

Hopefully, by doing so, the desired goal which is- INDIA TO BE A DEVELOPED COUNTRY BY 2047, will be accomplished successfully and our nation will hold reputable position on a global scale.
